EISNER

Harold —
The part about "business men" is Eisner's, not mine.

Dear Mr. Bernabai:

Further to our conversation of this afternoon, may I add that you and I share the same opinion, in that, there was a conspiracy involving American business men and certain agencies of the United States Government. However, I do disagree in your theory as to motive, and your own interpretation of the facts.

As I mentioned to you this afternoon, I extend an invitation to you and your wife at my home, here in Belleville for a mere personal discussion on this topic.

Realizing how interested you are in this subject I am sure I can provide an enlightening evening.

Personal regards,

Donald F. Eisner
